

**THE BEST POWER SYSTEM  
IN DELHI & NCR  
LITERALLY**

**You are safe.  
Rest assured.**

**GENCO POWER SYSTEM PVT LTD** ' Genco Power Tech is one of the premier Electric Panels manufacturers and suppliers. We have professionals with vast experience in the field of industrial automation & distribution systems. All the products of the company are manufactured as per the international quality constraints and can compete with their international counterparts. The company ensures that the products are monitored at each stage of production, to ensure that only the best products leave the factory. The company's electric panels are high in looks, performance and durability.

**GENCO POWER SYSTEM PVT LTD** is an ISO 9001:2000 certified company engaged in the manufacture of high capacity Power Systems. Our product range includes AFM panels, Bus Ducts, Logic Control Panels, LT panels, Motor Control Centres, Capacitor Panels. With over 35 years of experience, we have attained high expertise in manufacturing power engineering products. By employing latest technologies and high efficiency.

# BEYOND BACKUP

## HT and LT Services

Genco power Tech is a leading HT services provider. We provide following services under our HT services plan:

1. Electro mechanical Engineering Services
2. Commissioning of sub-stations
3. Protective relay testing & calibration
4. Testing of distribution system with primary & secondary injection
5. High Pot testing
6. Overhauling, Testing & Commissioning of Transformer
7. HTOCB / VCB / SF6 / Ring main units testing & commissioning.
8. Testing of distribution system
9. Installation & Testing of Safety Systems Like Fire Detection

Genco power Tech provides LT services provider. We provide following services under our LT services plan:

1. Complete electrical auditing
2. Energy management system
3. Analysing of electrical power
4. Laisaing of electricy connections with BSES / UPPCL / HSEB.
5. Design & Engineering services
6. Air Condition Panels
7. Auto/Manual Synchronizing With Auto Load Searing
8. Installation of Coil Cooler in D.G.SET in place of Cooling Tower.
9. Electrical Auditing and Checking of Installation Safety

**GENCO POWER SYSTEM** have a group of Experienced, Qualified Well Equipped Engineers & Skilled Technicians in Various Engineering areas. Job Description as Following.

# TURNING DREAMS INTO REALITY

## **TYPES OF OPERATIONS :**

**Design & Engineering for Electrical Power Distribution Systems.**

**Supply & Erection of Complete Electrical Lighting & Power Installations.**

**Turnkey Electrical Projects**

**H T Substation Installation, Testing & Commissioning.**

**Protective Relays Testing & Commissioning.**

**Electrical Auditing and Checking of Installation Safety.**

**Trouble shooting Electrical Distribution System.**

**Maintenance and Modification in Electrical System.**

# Electrical Turnkey Projects

Genco Power Tech provides complete project solution of electrical turnkey projects. We at Unitop, are specialised in electrical engineering turnkey project. We maintain a team of licensed, experienced technicians and engineers that can work and supervise your project from beginning till end. The electrical turnkey projects at Unitop include designing, engineering, supervision, planning, and all other things that can bring out products of best quality and performance. We also remove all risk factor through risk assessment method before the final delivery.

We have a technically sound team to take care of our AMC service. We give door-to-door service and are fully equipped to meet the power service requirements of our customers with varied needs. We adapt ourselves with updated technology to meet the ongoing demands in the market. Our contracts help save maintenance costs and reduce the breakdown time.

## Electrical Panels

Genco Power Tech is one of the leading manufacturers and Suppliers of **Electrical Panels**. Our company manufactures Form-IV Type of Cubicle Medium Voltage change over panels up to 3200 A and Sub

Switchboards are manufactured according to Standard IE Rules. The Switchboards are designed and developed keeping in mind future expansion of the Industry. All the enclosures are fabricated out of 16/14 SWG CRCA steel sheets and they are also powder coated. Out all switchboards and MV Panel Boards are manufactured by using refined raw materials to ensure reliability and durability of products.

**Apart form electrical panle manufacturing we also manufacture following panels:**

- Main LT Panels
- Power Control Panels
- Motor Control Centre
- PLC Panels
- Air Condition Panels

- Automatic Power Factor Improvement Panels
- Automatic Street Light Panels
- Bus Ducts.
- Servo Bypass Panels
- Distribution Boards for AC and DC
- Auto Synchronizing & Auto-load Seasing Panel
- Feeder Pillars
- Control Desks
- Erection & Commissioning
